

BREWMASTER & SUPERSIRE

April 2016 proof round finds both 250HO1009 Brewmaster and 7HO11351 Supersire topping the charts again. Both sires debuted in April 2015, with Brewmaster as #1LPI sire and Supersire as #1TPI sire. Every proof round since their debut these sires have remained # 1. On both sides of the border, these two sires are setting a standard hard to match.

Brewmaster has also remained the #1 Fat sire (+136) in every proof round. While, Supersire's Milk (+2217) remains impressive! Breeders are commenting they love their daughters.

FUNCTIONALITY & STYLE

We again see 7HO11477 McCutchen topping the chart as the best in the breed for Feet & Legs (+19).

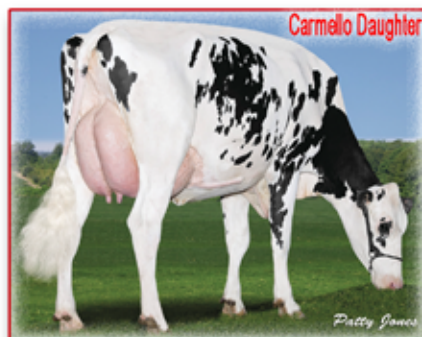

Also, 4 of the top 5 sires for Udders and Feet & Legs combined are: Tied at #1: McCutchen (+12MS & +19F&L) & 7HO10506 GW Atwood (15MS & 16F&L), followed closely by 7HO9264 Dempsey (+13MS & +15F&L) & 7HO10920 Gold Chip (+14MS & +14F&L) also tied #4.

For conformation, GW Atwood (+3.64) & 7HO11596 Defiant (+3.64) are tied #1Type sire in the US. Maintaining high conformation scores, Dempsey (+17), Gold Chip (+16) and 7HO10999 Bradnick (+16) are 3 of the Top 6 for Type in Canada.

Introducing our new WellnessPRO™ sire designation.

Select Sires GenerVations is pleased to introduce our newest designation: **WellnessPRO™**

“The new tools developed by Zoetis with CLARIFIED Plus® provide us with more detailed information about health and wellness. This will allow Select Sires to more directly develop genetics that improve the overall fitness of dairy cows.”

Chuck Sattler, Vice President Genetic Programs, Select Sires Inc.

Always passionate about customer success, Select Sires is collaborating with Zoetis to provide two innovative indexes for its Holstein sires.

These Indexes include:

- **Dairy Wellness Profit Index™ (DWP\$™):**

A multi-trait selection index which includes production, fertility, type, longevity and the wellness traits, including Polled test results.

- **Wellness Trait Index™ (WT\$™):**

This selection index focuses exclusively on the wellness traits (mastitis, lameness, metritis, retained placenta, displaced abomasum, ketosis and polled) and estimates expected differences in lifetime profitability related to them.

WELLNESSPRO™

Select Sires will test all bulls using CLARIFIED® Plus by Zoetis and provide DWP\$ and WT\$ indexes. The top WT\$ sires at Select Sires GenerVations will be designated WellnessPRO™ to identify the sires with the greatest chance to make a positive impact on wellness by reducing the genetic risk of common dairy cow diseases. (CLARIFIED® Plus derives genetic predictions based on data collected from millions of health records within U.S. commercial herds.)

Look to Select Sires GenerVations for WellnessPRO™ sires; providing you with wellness trait genomic information for more comprehensive breeding strategy, a healthier, more trouble free herd over time, and positive impact on profitability.

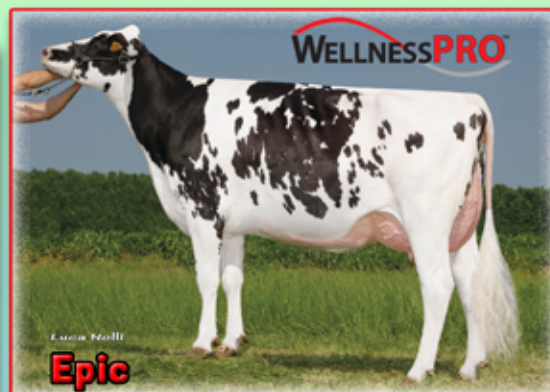

For more detailed information on WellnessPRO™ sires with a complete list of all Select Sires GenerVations' WellnessPRO™ sires and their DWP\$™ and WT\$™ Index values, and for more information on CLARIFIED® Plus genomic testing by Zoetis Inc.:
